

Spa T5 21W

Blue Lagoon Spa UV-C T5 21 W

This UV-lamp is specially designed for high-temperatures ($\pm 40^{\circ}\text{C}/\pm 104^{\circ}\text{F}$). The Blue Lagoon Spa UV-C T5 21 W has an electronic ballast with a LED indicator which makes it easy to integrate and work within every Spa installation and control system.

LED indication

The LED will turn green or red. Green means the lamp is lit, red means the lamp must be replaced as quickly as possible. If the device is switched on, the system will check itself.

Operation

Additionally the Blue Lagoon Spa UV-C 21 W can be fitted with an N-Lok connector making it possible to connect to most Spa control boards. Thanks to the Blue Lagoon Spa UV-C, your spa water will be disinfected efficiently and safely and the quality of your water will remain excellent. The UV-C radiation inactivates bacteria, viruses and other micro-organisms and stops them from multiplying. This can reduce your chlorine concentration up to 50%! Max. pressure: 1 bar. 50mm connections included.

Advantages of the Blue Lagoon Spa UV-C T5 21 W

- Includes a ballast with a LED indicator
- UV-C lamp specially designed for high-temperatures ($\pm 40^{\circ}\text{C} / \pm 104^{\circ}\text{F}$)
- Compact in size
- Easy installation and maintenance
- Made in the Netherlands
