

## Timer 4ALL

### Blue Lagoon Timer UV-C 4ALL

#### Operation

The Blue Lagoon Timer UV-C 4ALL with DUPLEX stainless steel housing is suitable for both chlorinated and salt-water (electrolysis) pools, hence the addition 4ALL. Next to the highly corrosion resistant DUPLEX stainless steel housing, the Blue Lagoon Timer UV-C 4ALL contains an integrated timer that accurately monitors the number of operating hours. You can therefore see exactly when the lamp must be replaced.

#### Amalgam lamp

The amalgam version includes a flow switch that will turn off the lamp when the flow is too low.

The UV-C amalgam lamp is less affected by temperature fluctuations in the water and generates a constant, powerful radiation and the most effective type of emitter available and the most powerful UV-C radiation on the UV-C market.

#### Advantages of the Blue Lagoon Timer UV-C 4ALL

- DUPLEX housing, suitable for all pools
- Timer function indicating the remaining lifetime of the lamp;
- A built-in electronic ballast to ensure a smooth power supply;
- Up to 35% more UV-C yield as a result of reflection by the DUPLEX housing;
- Multiple installation options for easy installation;
- Comes with Ø63mm to Ø50mm fittings, and 1½" female threaded inserts
- Made in the Netherlands
